Notwithstanding the weeks of good weather for drying up the mud in the road, Green's lane is still in a very bad condition, and loaded wagons can not pass over it without great strain on the teams. There is no section of road in the county that needs piking as badly as this.

The Evansville Journal complains that this city is badly misrepresented by the sensational dispatches sent to metropolitan journals, but at the same time asserts the probability of its being able to stand it.

The information of a supreme and permanent court for the settlement of fisheries disputes between Canada and the United States is advocated by the Pall Mall Gazette.

Big Bear, the great Indian chief, and three of his head men who have been in prison for nearly a year in the Canadian Northwest for complicity in the Red rebellion, have been released.

The great annual sale of yearlings at Belle Mead near Nashville, Tenn., occurred Tuesday in the presence of 1,500 visitors. The aggregate proceeds of forty-eight colts and fillies sold was \$38,125, an average of \$312.

Three men got on an Illinois Central passenger train while at the incline, bound south, Monday night, and robbed two or three passengers. One passenger was supposed to have been shot by them. Two of them were arrested and identified by one of the parties robbed.

A freight train on the Missouri Pacific was wrecked Monday morning near Wyandotte. Spikes had been removed from the rails on a curve and when the train approached, the engine and four cars were thrown down an embankment. Ben Horton, fireman, and Geo. Carlisle, brakeman, were killed, and engineer Fowler was seriously injured.

A special from San Antonio, Tex., says: T. A. Butram, just from the West, says that the Missouri Pacific encountered a severe hailstorm between here and El Paso on Saturday afternoon. The hail was of large size and covered the ground completely, making an ice field. Its force was so strong as to break headlights on the engine attached to the pay-car. After getting through the storm into apparently good weather for five miles the circuitous course of the storm again struck the train and created similar havoc. The main force of the storm was between the stations of Haymond and Marathon.

The Rev. Benj. Doering, of St. Louis, has been for some days past holding a series of temperance revival meetings at Benton, Mo., which have been wonderfully successful. Monday night some one as yet unknown placed in the pitcher of water which the revivalist had placed upon the desk from which he was speaking, a large quantity of croton oil. Several persons drank of the water before the services began and became deathly sick, but not knowing the cause of their illness failed to warn Mr. Doering not to drink from the pitcher. The latter, during his discourse drank a glass of water and was taken sick. All who tasted the water are still in a precarious condition. Two saloon keepers have been arrested on suspicion, and it is thought that they poisoned the water in order to end the services which were having such a depressing effect upon their business.

The Evansville Journal complains that this city is badly misrepresented by the sensational dispatches sent to metropolitan journals, but at the same time asserts the probability of its being able to stand it.

KENTUCKY KNOWLEDGE.

St. Kimball shot and killed Lyton Stewart in Fayette county, last Saturday.

The Commissioners of the Sinking Fund spent the Sabbath day in hearing testimony at Greenwood mines.

The Ohio Valley Railroad has been completed from Henderson to Morgantown, the county seat of Union county.

The Senate has confirmed the nomination of Caleb W. West, of Kentucky, to be Governor of Utah Territory.

There are thirty prisoners confined in jail at Barbourville charged with illicit manufacture and sale of whisky.

John Henry Wren was sentenced to prison for life last Tuesday, by the Bourbon Circuit Court, for the murder of W. M. Ross.

Earnings for the L. & N. Railway, for the third week of April, 1886, \$229,605; for 1885, corresponding week, \$268,315; decrease of \$38,710.

Eight small boys in Louisville while rowing on the river Sunday fell into the water and were hauled out by the life saving crew at the last moment before drowning.

Carlisle county is 18 miles long and 12 miles wide. Milburn, Arlington and Barwell all want the county seat. The chances are rather in favor of Arlington.

Nannie Groves, an old colored woman of Franklin, was so severely burned Tuesday, that she is not expected to recover. Her clothes caught fire accidentally.

Monday evening, Herman Timme, a German carpenter of Louisville, attempted suicide by taking six grains of strychnine. Antidotes were administered and Tuesday morning he was pronounced out of danger.

The death of Hon. W. W. Orr, of Bracken county, has been announced. As farmer, business man and legislator, Mr. Orr was one of those typical Kentuckians who have quietly done so much for the State. He was in every sense a good man.

The forthcoming Report on the Mineral Resources, of the United States for 1885, from one of the departments at Washington will show that Pennsylvania produced nearly 4,000,000 tons of coke, while Kentucky produced but 2,704 tons. The last report of the Geological Survey of Kentucky attempts to prove that Kentucky has a larger area of coking coals than Pennsylvania, and that the coke which may be produced is of a slightly superior quality. These are but specimens of the facts to be adduced to show that the disparity in wealth between Kentucky and Pennsylvania is largely due to a neglect in this State to take advantage of opportunities.

An End to Bone Scraping.

Edward Shepherd, of Harrisburg, Ill., says: Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. I have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well. Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25c. per box by J. R. Armistead.

KELLY'S, KY.

Your Sinking Fork correspondent, Ben Samson, hits it about right in regard to mental spasms, as any one will say who read his effusion this week. He certainly has the symptoms.

Mr. John Long lost a mule recently in a rather singular manner. He attempted to catch the animal when it trotted away from him and striking its foot against some obstruction it fell and broke its neck and died immediately.

Mr. John Bobbitt, living a mile northwest of Kelly's, lost a lot of meat one night this week, by some person or persons breaking into his meat house.

It was not such a heavy penalty to gamble, we would bet ten cents worth of peanuts that the next time George Rogers invites a crowd to come and drink at his expense, they drink.

We received advices from a well posted gentleman yesterday, who is a near friend to Hon. J. A. McKenzie, that the gentleman will shortly announce himself a candidate for congress. The gentleman said that he believed McKenzie would have no trouble in being elected and claimed that he will carry Christian, Davies, Hancock, McLean, Union and Henderson over Lafayette. We don't know how much credence to give the statement of McKenzie's intention to run; but if he should run, the calculations of divers politicians will be very seriously disturbed. Ignatius Spalding is another quantity that disturbs Mr. Laffoon's dreams a little. If Spalding can carry Union, Henderson and Davies counties, he would have a majority. We have heard no intimation from him or his friends as to whether he contemplates running. It is possible that the race may take a very interesting shape—Henderson Gleason.

An entertainment for the benefit of the Public School Library will be given in room No. 11 of the Public School building this afternoon at 2:30 o'clock by Mrs. Helen Stuart-Richings. The admission fee is 15 cents.

It hoped that an appreciative public will well fill the room. Mrs. Richings is an elocutionist of unusual excellence and her entertainments are rich treats.
